

Strategic Intelligence Briefs — Commercial Licensing Pack

Author: Mitha Soeprapto-Fox

Use: Regulatory Intelligence, Sectoral Risk, Strategic Foresight

Jurisdiction: United Kingdom (Governing Law)

1. Licensing Tiers

▪ **Personal Access Licence (Individual Use Only) — Price: £35,000 per Brief**

This licence grants temporary, view-only access for a single individual. It is intended for CROs, executives, partners, and senior decision-makers requiring short-term access for personal strategic use.

Permitted Uses

- View-only access via the Author's Proton Drive
- 30–60 day access window
- Personal reading and analysis
- Use for individual decision-support

Prohibited Uses

- Unless explicitly licensed, the following are prohibited:
- Downloading, copying, printing, or screenshotting
- Redistribution to any other person
- Sharing with employers, teams, clients, or partners
- Uploading to internal systems or knowledge bases
- Ingestion into AI systems, LLMs, or automated tools
- Creating derivative works
- Use in commercial, client-facing, or institutional contexts
- This licence is strictly for one human being only. It does not extend to any company, employer, or affiliated entity.

▪ **Personal Ownership Upgrade — Price: +£20,000 (Total £55,000)**

This upgrade converts the temporary access licence into a personal ownership licence.

Permitted

- One personal digital copy
- Long-term personal reference
- Personal strategic use

Not Permitted

- Redistribution
- Sharing with employer or colleagues
- Uploading to internal systems
- Derivative works
- AI ingestion
- Use in commercial or client-facing materials

Ownership is personal, non-transferable, and does not grant corporate rights.

- **Single-Entity License — £175,000 per Brief**

Default license for all briefs.

Permitted:

- Internal reading rights
- Internal distribution within the same legal entity
- Use for decision-support, risk assessment, and strategy

Not permitted:

- Subsidiaries
- Affiliates
- Group-wide use
- Derivative works
- External distribution
- AI ingestion or automated processing

This is the baseline licence for all briefs.

- **Multi-Entity / Subsidiary License — £175,000 + £75,000 per Additional Entity**

For organisations with multiple regulated units or subsidiaries.

Permitted:

- Use across specified legal entities
- Internal distribution within each licensed entity

Each additional entity requires its own licence.

This is standard in regulated sectors.

- **Enterprise-Wide License — start from £550,000 per Brief**

For large organisations requiring group-wide access.

Permitted:

- Unlimited internal use across all entities under the parent company
- Internal knowledge-base ingestion (non-AI)
- Use by compliance, risk, strategy, audit, and regulatory affairs teams

This is the simplest option for multinationals.

- **Annual Access License — start from £1,250,000 per Year**

For organisations requiring recurring intelligence.

Includes:

- 4–6 briefs per year
- Regulatory horizon scans
- Sectoral updates
- Priority access for custom requests
- Direct communication channel for clarifications
- Early access to annexes and cross-sector mappings

- **Derivative-Use License — start from £800,000**

For organisations wishing to:

- Integrate insights into internal decks
- Build internal frameworks based on the brief
- Use the analysis in strategy documents
- Adapt the content for internal training
- Develop internal governance playbooks

Derivative rights are not included in standard licences.

▪ **Vendor / Platform Integration License — Starting from £5,000,000+ Base**

Mandatory for

- software entities
- SaaS platforms
- enterprise AI developers seeking to embed, ingest, process, or reference our proprietary risk scoring systems, the 5-Factor SES Model, or the C-SCIL framework.

Baseline integration rights require a £5M initial corporate anchor

- subject to a **mandatory 15% Gross Revenue Share** on all derivative commercial modules
- an **annual £1.5M+ (base) Recurrent Ingestion Royalty**.
- Unauthorised automated processing or LLM training without a signed Platform License triggers immediate, irrevocable legal escalation under United Kingdom Governing Law for massive asset conversion damages.

▪ **Sovereign / Regulator Licence — start from £6,000,000+**

For:

- national regulators
- sovereign funds
- ministries
- cross-border supervisory bodies

Includes:

- full suite access
- unified annex
- cross-sector mappings
- custom sovereign-risk modelling
- multi-year alignment

This is the highest tier.

2. Terms of Use & Limited License

Scope of License

Each purchased brief grants a **non-exclusive, non-transferable, revocable** license for internal use within the licensed entity/entities.

The license covers:

- Reading
- Internal analysis
- Decision-support
- Internal distribution (within the licensed entity only)

Prohibited Uses

Unless explicitly licensed, the following are prohibited:

- Redistribution outside the licensed entity
- Sharing with subsidiaries, affiliates, or parent companies
- Uploading to AI systems, LLMs, or automated ingestion tools
- Creating derivative works
- External publication or citation
- Use in client-facing materials
- Use in commercial products or platforms
- Training internal or external models on the content

Any violation constitutes immediate license revocation.

Intellectual Property

All briefs, frameworks, and analyses remain the exclusive intellectual property of the Author. Licenses grant **use**, not **ownership**.

Attribution

Attribution is required for any internal reuse:

“Source: Mitha Soeprapto-Fox, Strategic Intelligence Brief.”

External attribution is not permitted without written approval.

AI & Automation Restrictions

The content may **not** be:

- used to train AI models
- ingested into automated systems
- embedded into LLM-powered tools
- used for model fine-tuning
- used for dataset creation

Separate licensing is required for any automated or AI-related use.

Revocation

Licenses may be revoked for:

- breach of terms
- redistribution
- derivative misuse
- AI ingestion
- misrepresentation
- non-payment

Upon revocation, all copies must be deleted.

3. Pricing Logic (for Procurement)

Strategic Intelligence Briefs are priced based on:

- regulatory foresight value
- sectoral exposure mapping
- decision-grade clarity
- risk-avoidance impact
- institutional relevance
- proprietary frameworks
- author expertise

A single brief may prevent:

- regulatory penalties
- compliance failures
- procurement misalignment
- strategic missteps
- multi-million-pound exposure

Pricing reflects the **cost of being wrong**, not the length of the document.
